LIGHT
of the future

FIRST RANGE OF WORK LIGHTS FOR COLOUR MATCH IN THE WORLD

SCANGRIP is launching a brand new range of colour match work lights. Due to the special LED features, SCANGRIP COLOUR MATCH is perfect for any paint, polish, cleaning or prep-zone operation and is the only colour match work light range in the world.

The sturdy COLOUR MATCH products are designed for use in the painting workshop. They are supplied with a replaceable glass lens resistant to all kind of solvents and tolerating daily cleaning. The long operating time of the COLOUR MATCH work lights makes it possible to complete a job without interruption by time-consuming recharging. Both SUNMATCH and MULTIMATCH are completely dust and waterproof and resistant to the extremely demanding painting workshop environment.

Special LED with high CRI value for perfect colour recognition

- Extremely long LED lifetime
- Perfect for any paint, polish, cleaning or prep-zone operation
- Increase quality and finish of each operation
- Reduce the rate of time-consuming and costly re-work

MATCHPEN
€ 49

MATCHPEN

A small penlight easy to carry and always at hand in the pocket. The light output is very powerful with excellent colour recognition properties. With focus function for concentrated and focused light beam ranging from 10° to 70°. IP54 class. 2xAAA batteries are included.

- For colour match
- For detection of scratches and swirl marks
- For inspection

MATCHPEN 03.5117

Ultra high CRI LED
95 CRI
4000 KELVIN
300-4000 lux
100 lumen
10°-70° beam angle
2h operating time
2 X AAA/1.5V Alkaline
IP54

SUNMATCH
€ 129

SUNMATCH

Handheld rechargeable work light with excellent colour recognition properties. Easy to carry in the pocket or in the work belt by the built-in belt clip.

Place the lamp anywhere you want during inspection work with the turnable sturdy hook or the strong built-in magnet. The flexible lamp head tilts up to 180 degrees. Durable construction, dust and waterproof, IP65.

Supplied with a two-step operating option depending on the type and durability of the work carried out: Step 1 = 100%, step 2 = 50% light output. Up to 3 hours operation time.

SUNMATCH is supplied with li-ion battery and intelligent battery indicator at the front. To save battery and avoid risk of overheating an intelligent built-in system switches off the lamp after 3 minutes use at high mode. The charging base is prepared for wall mounting and supplied with magnet on the bottom side to fix it to the working table.

- For colour match
- For quality check between prep-zone operations
- As general work light

MULTIMATCH

Outstanding, strong and powerful colour match work light providing 2000 lumen.

Can be used both with cable connection and with battery without cable connection depending on the work task in question. This gives you complete flexibility and unlimited application possibilities. 2-step light function provides up to 6 hours battery operating time.

The body is made of diecast aluminium which makes it extremely sturdy and shockproof to endure even strong strokes and shocks. At the same time it is dust and waterproof, IP67. The flexible stand makes it possible to position the lamp in the desired angle.

A tripod stand with brackets for one or two lamps is available as additional accessories.

- For colour match
- For inspection during polishing, painting and cleaning operations
- As general work light
